

## Pharmacy Program Updates: Quarterly Pharmacy Changes Effective April 1, 2022 – Part 2

### **IMPORTANT PHARMACY BENEFIT REMINDERS**

Jan. 1, 2022 is the start of a new year and renewed or new health insurance benefits for most Blue Cross and Blue Shield of Oklahoma (BCBSOK) members. As you see your patients, please consider the following reminders:

- Members' benefits may be based on a new drug list when their plans renew in 2022.
- Discuss your patients' benefits during an office visit or confirm their benefits by calling the number on their ID cards.
- Review the prescription drug list before prescribing medications.
- If your patients need a coverage exception or prior authorization request in order to take a medicine that may be excluded from coverage or included in a utilization management program, please visit the Prior Authorization/Step Therapy Programs section of our provider website at [bcbsok.com/provider](http://bcbsok.com/provider) for the form and more information.

Treatment decisions are *always* between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

### **DRUG LIST CHANGES**

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the BCBSOK drug lists.

Please note: Revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) were included in the [April Quarterly Pharmacy Changes Part 1 article](#). Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes.

**Changes effective Sept. 19, 2021 – April 1, 2022 are outlined below.**

#### **Drug List Coverage Additions – As of Sept. 19, 2021**

DIFICID (fidaxomicin tab 200 mg)	Preferred Brand	Clostridium difficile

<sup>1</sup>Third-party brand names are the property of their respective owner.

### **UTILIZATION MANAGEMENT PROGRAM CHANGES**

- Clarifications to the Standard Utilization Management (UM) Programs
  - The April Quarterly Pharmacy Changes Part 1 article incorrectly stated the Deferasirox Specialty Prior Authorization (PA) program will change its name to Iron Chelation and add a new target drug, Ferriprox, effective April 1, 2022. **The name change and target drug addition will be effective July 1, 2022.**
  - The January Quarterly Pharmacy Changes Part 2 article mistakenly mentioned the following:
    - The Enzyme Deficiency Specialty PA program changed its name to Phenylketonuria, effective Jan. 1, 2022. **The correct effective date was Feb. 1, 2022.**
    - The standard Insulin Agents PA program changed its name to Rapid to Immediate Acting Insulin, effective Jan. 1, 2022. The correct name change is: **Rapid to Intermediate Acting Insulin.**
  - Cholestasis Pruritus Specialty PA program was misspelled in the January Quarterly Pharmacy Changes Part 2 and April Quarterly Pharmacy Changes Part 1 articles.
- Effective **Jan. 1, 2022**, the Antifungal Agents – Onychomycosis PA program changed its name to Onychomycosis. The program includes the same targeted medication.
- Effective **March 15, 2022**, the Cystic Fibrosis Specialty PA program changed its name to Cystic Fibrosis Transmembrane Conductance Regulator (CFTR). The program includes the same targeted medication.

For the most up-to-date drug list and list of drug dispensing limits, visit the Pharmacy Program section of our Provider website.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit [bcbsok.com](http://bcbsok.com) and log in to Blue Access for Members<sup>SM</sup> (BAM<sup>SM</sup>) or MyPrime.com for a variety of online resources.

## Diabetic Test Strips at a Reduced Cost-share

As a reminder, effective Jan. 1, 2022 (regardless of renewal), select diabetic test strips moved to a lower member payment tier from a preferred brand tier to either a non-preferred generic or generic tier, based on plan benefits.

**Details:** This applies across all drug lists for our group BCBSOK members.

- This benefit change applies at retail and home delivery pharmacies.
- Dispensing/quantity limits still apply.
- Any additional charges for using a non-preferred or out-of-network pharmacy still apply. Note: Some members' benefit plans may include a Preferred Pharmacy Network, which offers reduced out-of-pocket expenses if members use a preferred pharmacy instead.
- The drug list publications do not show the distinction in tier change.

If your patients have questions, please advise them to call the number on their ID card to verify coverage and confirm if their pharmacy of choice offers the diabetic test strips at a reduced cost-share.

Prime Therapeutics LLC is a pharmacy benefit management company. BCBSOK contracts with Prime to provide pharmacy benefit management and related other services. In addition, contracting pharmacies are contracted through Prime Therapeutics. The relationship between BCBSOK and contracting pharmacies is that of independent contractors. BCBSOK, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime. MyPrime.com is an online resource offered by Prime Therapeutics.

The information mentioned here is for informational purposes only and is not a substitute for the independent medical judgment of a physician. Physicians are to exercise their own medical judgment. Pharmacy benefits and limits are subject to the terms set forth in the member's certificate of coverage which may vary from the limits set forth above. The listing of any particular drug or classification of drugs is not a guarantee of benefits. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.
